

THE JOY OF MOTHERHOOD

Came to this Woman after Taking Lydia E. Pinkham's Vegetable Compound to Restore Her Health

Ellensburg, Wash.—"After I was married I was not well for a long time and a good deal of the time was not able to go about. Our greatest desire was to have a child in our home and one day my husband came back from town with a bottle of Lydia E. Pinkham's Vegetable Compound and wanted me to try it. It brought relief from my troubles. I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound."—Mrs. O. S. Johnson, R. No. 3, Ellensburg, Wash.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years experience is at your service.

HAARLEM OIL CAPSULES IF YOUR BACK ACHES

Do you feel tired and "worn-out"? Are you nervous and irritable? Don't sleep well at night? Have a "dragged out," unrefreshed feeling when you get up in the morning? Dizzy spells? Bilious? Bad taste in the mouth, backache, pain or soreness in the joints, and abdomen? Severe distress when urinating, bloody, cloudy urine or sediment? All these indicate gravel or stone in the bladder, or that the poisonous microbes, which are always in your system, have attacked your kidneys.

You should use GOLD MEDAL Haarlem Oil Capsules immediately. The oil soaks gently into the walls and lining of the kidneys, and the little poisonous animal germs, which are causing the inflammation, are immediately attacked and chased out of your system without inconvenience or pain.

Poor Comparison. Caroline was eating a green apple, and her mother said, "O, dearie, don't eat that! It will make you sick as a dog!" Caroline's reply was prompt and logical, "Our dog is the weldest one of the family."

Hard Luck, Indeed.
"Say," said an infantryman, "do you want to hear about the worst piece of out-of-luck that ever happened in the A. E. F.? A pal of mine went into the fight with 2,000 francs in his pocket. Now he's reported missing."—Stars and Stripes.

Influences on Temperament.
"You don't write any more delicate and soulful poetry."
"No," answered Mr. Penwinkle. "By the time a man has gotten a fountain pen and a typewriter tuned up for a day's work he's in no mood for delicate and soulful stuff."

Not Rafferty's Feet.
At a parade of a company of newly called up men, the drill instructor's face turned scarlet with rage as he stated a new recruit for his awkwardness.
"Now, Rafferty," he roared, "you'll spoil the line with those feet. Draw them back at once, man, and get them in line."
Rafferty's dignity was hurt.
"Praise, sergeant," he said, "they're not mine; they're Micky Doolan's in the rear rank!"

VERMIN ATTRACTED BY FOOD

If No Scraps Are Around There Will Be Little Trouble With Ants or Roaches.

The surest way to keep a house free from ants is to leave no food lying about on shelves or in open places, where they can reach it. Ants go where they find food, and if the food supplies of the household are kept in ant-proof metal containers or in ice boxes, and if all foods that may happen to be scattered by children or others are cleaned up promptly, the ant nuisance will be slight. Cake, bread, sugar, meat, and like substances, are especially attractive to the ants, and should be kept from them.

Roaches will not frequent rooms unless they find some available food material, and if such materials can be kept from living rooms and offices, or scrupulous care exercised to see that no such material is placed in drawers where it can leave an attractive odor or fragments of food, the roach nuisance can be largely restricted to places where food necessarily must be kept.

MAN-POWER BILL PASSED BY HOUSE

BILL PRACTICALLY SAME AS DRAFT ORIGINALLY SUBMITTED BY SECRETARY BAKER.

Provides for Drafting of All Able-Bodied Men Between Ages of 18 and 45—No Restrictions as to Time of Calling Men.

Washington.—The house passed the man-power bill on August 24, by the vote of 336 to 2. The negative votes were cast by William Gordon, who was recently defeated for renomination in the Ohio Democratic primaries, and Meyer London, Socialist of New York. The measure goes from the house to the senate for approval.

The bill as passed by the house practically is the same as the draft originally submitted to congress by Secretary Baker. It provides for the drafting of all able-bodied men between the ages of 18 to 45. No restrictions are placed upon the war department as to the manner or time of calling the men of any age into service.

The only important amendment put into the bill by the house is one which will provide for a thorough going over of all the men heretofore registered who have been given exemption or deferred classification by local boards. The provost marshal general is given authority to order the local boards to re-examine all such registrants and to order them into service if the reasons for their deferment are deemed unsatisfactory.

An amendment put in by Mr. Woods of Iowa, to compel the government to pay for the laundry work of the men in camps, was adopted by the vote of 85 to 34. Mr. Woods told the house that the men could not afford to pay their laundry bills at the present high prices.

MEN CALLED IN NEW DRAFT.

Provost Marshal Issues Call for 186,773 Men.

Washington.—Four separate draft calls, constituting the first of the September calls and requiring 186,773 men to entrain for training camps between August 30 and September 6, were issued Saturday by Provost Marshal General Crowder. Every state and the District of Columbia is called to furnish men for training to augment the forces abroad. For general military service 125,000 white men and 21,270 negroes are called; for limited service 40,503 white men are called.

Utah is to furnish 900 white and 5 colored draftees under the call, Idaho will send 700 white and 12 colored men; Nevada, 100 white and 6 colored; Wyoming, 300 white, and Montana, 1000 white and 18 colored men.

WILL FURNISH ALLIES FOOD.

America Will Sacrifice Food as Well as Blood, Declares Hoover.

New York.—The United States will share with the allies their sacrifice of food as well as blood in the cause of world democracy, declared Herbert C. Hoover, federal food administrator, on his arrival here Friday, after a brief visit to England and France.

Asserting that "we have to make good," a pledge to this effect which he has given to the allied food administrators while sitting "at a common table in a common cause," Mr. Hoover said that, to do so, America will next year have to supply the allies 4,000,000,000 pounds of fats, 900,000,000 pounds of beef products, 500,000,000 bushels of cereals, and 1,500,000 tons of sugar. However Mr. Hoover added, beginning September 1 there will be no need for drastic food rationing in the allied countries, except in the case of sugar and beef.

Americans 20 Miles from Rhine.

Washington.—The military forces of the United States are nearer the Rhine than any command of the allies, and the Rhine is separated from the advanced American posts by a distance of only 20 miles. This was disclosed by General March, chief of staff, in his Saturday talk with the representatives of the press.

Firemen Strike for Half Day.

Pittsburg.—Eight hundred city firemen who went out on strike at noon Saturday returned to their stations at night, and the city, after a thrilling few hours with a general alarm fire, now has its former fire-fighting force on duty.

Revolt of White Guards Imminent.

Amsterdam.—A revolt by the constantly increasing white guards in Russia is imminent, according to the Moscow newspaper Izvestia. The Bolshevik government has warned the public that it will suppress any attempts at revolt with an iron hand.

Will Limit Output of Autos.

Washington.—Manufacturers of passenger automobile and repair parts have agreed with the war industries board to limit production during the last six months of 1918 to 25 per cent of the total production in 1917.

No Concessions, Says Germany.

London.—German newspapers say that the situation between Spain and Germany is critical, but that Germany can make no concessions with regard to her submarine warfare, says a dispatch from Copenhagen.

GIRLS! USE LEMONS FOR SUNBURN, TAN

Try It! Make this lemon lotion to whiten your tanned or freckled skin.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whitener, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.

PUT IT SQUARELY UP TO DAD

Young Son of Famous Member of "Vigilantes" Frankly Considered His Father a Slacker.

Ellis Parker Butler, the author, who lives at Flushing, and is devoting his energy to aiding in the successful prosecution of the war, does not bear an enviable reputation for patriotism in his own household. Mr. Butler has been writing for the Thrift and War Stamps campaign.

Mr. Butler is the father of twin sons of tender age. Several nights ago he returned home tired after a day's work for the Red Cross and took his seat at the head of the table. After they had finished their dinner, the twins produced their Thrift Stamps and started to count them.

"Dad, look at all the stamps I have," said one of the youngsters. "I have 200. Look at brother's pile; he has more than I."

Mr. Butler nodded approvingly to Mrs. Butler and they both smiled. There was silence for a minute, then one of the twins looked up and exclaimed: "Dad, why don't you do something patriotic?"

SHE GOT COMPOSERS MIXED

Queen Victoria's Error Must Have Caused Mascagni to Pass an Uncomfortable Few Minutes.

Sometimes when a great personage essays musical criticism embarrassing errors arise. Once Queen Victoria invited Mascagni, the composer of Cavalleria Rusticana, to play for her at Windsor castle. When the musician was at the piano her majesty said:

"I am passionately fond of one of the numbers of your opera."

Mascagni played the Intermezzo.

"No," said the queen, "that is not the melody I mean."

Mascagni played the Prelude.

"That's not it, either."

Mascagni played the dramatic Duet.

The queen became almost impatient.

"I'll help you to remember it," she said, and hummed a few measures.

With increasing consternation Mascagni listened as the queen sang the Prologue to Leoncavallo's I Pagliacci!

Le Gaulois, in telling the story, does not say whether the musician informed the queen that she had made a mistake.—Youth's Companion.

Editor Finally Turned.

"And this," said the alleged old soldier, pestering a long-suffering editor who was an old soldier, "is where the Arabs were massed in front of us. Here"—pointing to another place on a dirty pocket map—"is where our division was drawn up in zarba."

"We deployed in this direction, and our left wing was attacked by the enemy on this knoll. Just at this point I was wounded on the left shoulder, and a hundred yards further on I got my right arm shattered by a piece of one of our own shells, and—"

"But," interrupted the bored editor, "where did you get your brains blown out?"—London Tit-Bits.

Danger.

"Your majesty, the enemy is pursuing our gallant forces relentlessly."

"How close are they to our splendid troops?"

"Very close, your majesty, very close. They are in actual contact with our rear guards, and within three weeks of catching up to the place where the crown prince is."

Just it.
"I wish I were sure ice would be plentiful this season."
"That would be cold comfort."

A Message to Mothers

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

Genuine Castoria always bears the signature of *Charles H. Fletcher*

It's usually the parents' fault when the children would rather be somewhere than at home.

Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

Class 1 includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

Class 2 includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

Class 3 includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit cannot possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.
